Welcome to Australia's fastest growing university

Torrens University
Australia is part of a
network of passionate
educators who believe
in the transformative
power of education to
change individual lives,
society and the world,
for the better.

We were founded through partnership with
some of Australia's most well-regarded
education providers, which share our
purpose-driven orientation and passionate
approach, bringing a powerful combined
offering to this market.

Together, we help students identify and
thrive in their chosen field, ensuring they
receive the qualifications they need to
create a career they love.

Getting the job you love

Your first day with us is a leap towards getting the career you dream of. You'll be supported every step of the way by a passionate network of industry leaders, with a personalised approach to teaching that's designed to not only land you the job you love, but to ensure you thrive in it.

Hands-on practice makes the perfect prospect

You don't just get to learn, you get involved – in real workplaces, on real briefs, for real clients. You'll be hands-on and tackling challenges that require practical problem-solving and genuine industry insight. You'll have a competitive advantage when chasing your dream career.

Forge your career with the best brands on the planet

We can help open doors with industry placements and internships at some of the world's most influential organisations. Our partners range from Australian Red Cross, Vogue Australia, Marque, Marriott and Flight Centre Travel Academy, to Healthe Care, Opal and many more.

Future-proofed and prepared to win the job

You're spoilt for choice with more than 300 purposefully created courses – all designed to get you job-ready. Future-proof your career with tomorrow's technology; every course is focused on today's workforce, resulting in industry-recognised skills with a global edge.

Get more out of teachers who love what they do

As passionate experts in their field, their vibrant energy will inspire you towards a career you love. You'll learn from the best in the business, gaining insight into what it's really like in your chosen field. With their expertise and connections, you'll get a foot in the door at the places you want to go.

Your very own mentor to encourage, inspire and guide

With your own dedicated Success Coach, you'll be guided through your studies so you get the most out of your course. Together, you can design a plan that helps you reach your goals. With practical, regular support, you'll set off on the right trajectory to a successful career.

Love the way you learn

At Torrens University Australia, you come first in every way. Our supportive approach to learning is tailored to suit any lifestyle or life stage, of every one of our students. You'll not only get the chance to forge the career of a lifetime, you'll have everything you need to love every moment of the experience.

Design a course that fits you perfectly

You can choose to study where you want, how you want and for how long. Sydney? Melbourne? Brisbane? Adelaide? Even your own bedroom? Our national campus network lets you study in a place that works for you. All your course materials and even your lecturer are just a click away, with everything available online for your convenience. Plus, you can study at a pace that suits your lifestyle, with part-time, full-time and accelerated options available.

“I love the flexibility of taking a subject online when you want to explore Australia for a few weeks, then your next subject on campus when you want to catch up with friends. It's really helpful. There is so much support and there are so many resources on campus.”

Pari Hame
Bachelor of Business

Smaller classes for a more collaborative experience

You'll learn more and learn faster when there are fewer in the class. Our smaller classes mean you get a more intimate, immersive and effective learning environment. You'll be an integral part of a close-knit community where you are seen, heard and respected as a valued individual – you'll also get far more dedicated face time with your teachers.

“I was attracted to the dynamic ideas and thinking facilitated by the university, particularly the emphasis on practical learning.”

Erika Furlanetto
Bachelor Culinary Management
Apprentice Chef, Anason

Relax, your wellbeing is in expert hands

We truly understand the pressure that study places upon a student – that's why we've created the ultimate safe space for your learning and growth. We have counsellors on hand to discuss any study or personal challenges you're facing.

We've got a devoted student services department full of experienced people who know just how challenging student life can be, ready to dispense any advice (or biscuits and tea) you might need.

The Torrens University advantage

The Rocks campus
Sydney

Love where you learn

Located throughout Australia, our dynamic, purpose-built campuses set Torrens University apart. You may choose to start your studies in one state, transfer to another and complete some or all of your final-year subjects online. With a range of campuses on offer, the choice is all yours.

Sydney – Melbourne – Brisbane – Adelaide

Pyrmont **Health & Nursing**

📍 5/235 Pyrmont St, Pyrmont, Sydney

Our campus is a dedicated centre for holistic health and wellbeing training complete with state-of-the-art lab equipment and simulated hospital environments. So we don't just deliver a stimulating education – we disrupt and reinterpret the way it's done.

- Wellness Centre clinic open to the public, to give students real-world experience
- Labs equipped with the latest 3D tools and imaging software
- Walking distance to the Opera House, Darlinghurst and many cultural icons

The Rocks **Business & Hospitality**

📍 1–5 Hickson Road, Sydney

Our cutting-edge campus is at the centre of a cultural precinct that world-renowned businesses, restaurants, bars and more all call home. Discover a creative and professional environment that is stylishly renovated and designed.

- Historic and iconic, The Rocks is considered the heart and soul of Sydney
- Equipped with the latest digital learning tools and open learning spaces
- Spacious, open-plan classrooms, abundant with natural light and beautiful views

Ultimo **Design & Creative Technology**

📍 46–52 Mountain St, Ultimo, Sydney

Inside this stylish inner-city campus, you'll find everything you need to craft your future. You won't just work in classrooms – you'll flourish in creative studios and professional spaces that mirror your future world of work.

- Heritage building located in the epicentre of Sydney's creative culture
- Converted warehouse, agency-style open-plan environment
- Industry-level photography, sound, gaming and design studios

William Blue Dining Hospitality

📍 107 George St, The Rocks, Sydney

William Blue Dining is our award-winning student training restaurant, which is open to the public. You'll learn firsthand what it takes to run a busy restaurant, whether in the kitchen or front of house. You'll have everything you need to hone your craft.

- Rated #12 on TripAdvisor for Sydney's best restaurants
- Additional satellite kitchen to hone practical skills
- Located in a thriving social hub filled with world-class restaurants, hotels and bars

Adelaide Business, Design & Creative Technology, Nursing, Health & Hospitality

📍 88 Wakefield St, Adelaide

Located on the historic site of the Menz Biscuit Factory, our campus has been built from the ground up with a single purpose in mind: an exceptional student learning experience. It's the perfect place to complete your studies, plus you'll love its charm.

- Plentiful breakout pods, chill-out zones and dedicated study areas
- Adelaide has been continually voted as one of the most liveable cities in the world
- A cutting-edge learning environment that is creative and stimulating

Town Hall Hotel Management

📍 L4/5 540 George St, Sydney

Standing opposite Sydney's Town Hall and Queen Victoria Building, our campus is at the heart of the bustling CBD, the hospitality and business sectors. Enjoy state-of-the-art lecture rooms and learning facilities in this perfect location.

- Computer labs and a modern, well-equipped library on site
- Thriving local economy means numerous part-time work opportunities close by
- Regular social events run by our passionate Student Council Representatives

Melbourne Business, Design & Creative Technology, Nursing, Health & Hospitality

📍 196 Flinders St, Melbourne

📍 25 Victoria St, Fitzroy, Melbourne

Our sustainable and inclusive campus is located in the heart of the CBD and Fitzroy, Melbourne's coolest district. You'll immerse yourself in a forward-thinking learning culture furnished with state-of-the-art facilities. A truly special space for students to thrive.

- Connect with other passionate students studying Hospitality, Business, Design and Creative Technology and Health
- Explore laneways laden with street art, shopping bazaars and street food
- Yarra River, Federation Square and Flinders Street Station are just a stone's throw away

Leura (Blue Mountains) Hotel Management

📍 1 Chambers Rd, Leura, NSW

Located on six hectares of landscaped private gardens and complete with all the recreational facilities you could dream of, our Leura (Blue Mountains) campus combines hotel living with world-class learning. Immerse yourself in the world of tourism and travel.

- Live and study in a simulated hotel environment
- Surrounded by world-heritage hikes and 1.5 hours from Sydney
- Non-stop support with a 24/7 Duty Manager available to help students

Brisbane Business, Design & Creative Technology, Nursing & Health

📍 90 Bowen Terrace, Fortitude Valley, Brisbane

📍 123 Gotha Street, Fortitude Valley, Brisbane

Overlooking the beautiful Brisbane River, our cutting-edge campus is the perfect place to complete your studies. Here, you'll find the latest digital technologies, open learning spaces and social vibes to ensure you achieve your goals.

- Nestled in the heart of Brisbane's trendiest entertainment district
- Stimulating, creative learning environments and collaborative classrooms
- Overlooking Brisbane River, with balconies to catch the breeze

Be Good

Be the change you want to see in the world

We're united by a belief that education has the power to change lives. So when we say we're here to Be Good, we mean it. These aren't just lofty words, but real and committed action that creates long-lasting, positive change in the communities we serve.

Students and faculty work side-by-side sharing our collective skills, knowledge and time to volunteer support to many social enterprises and not-for-profit organisations around Australia and the world.

If you'd love to roll up your sleeves and dive into a cause you're passionate about, we'll help make it happen.

Torrens University Australia is here to Be Good: the university celebrates the diversity of its communities. The university acknowledges that this diversity enriches the community and makes the achievement of its vision possible. The university upholds the principles of equal opportunity, inclusion, fair treatment, respect for all persons and integrity, and aims to produce future leaders committed to social justice and the pursuit of human rights.

story

Melanie Tran
Bachelor of UX
and Web Design

“

Be fearless.
Make mistakes.
Learn from them
and do better.

”

Meet Melanie, Here for Good winner*

“Be fearless. Make mistakes. Learn from them and do better. If you want to be innovative, creative and ground-breaking, you need to first believe in yourself – because a lot of people will tell you ‘no.’”

For Melanie Tran, accomplishing her dreams starts with a fearless attitude. Every day, she fights to make the world more inclusive and accessible for the one billion people who live with a disability.

Melanie began her studies in 2015. However, she hasn't let her busy schedule as a student stop her from using her unique perspective, expertise and voice to create a tangible and meaningful impact for others. She is the co-founder of AbilityMade and a UX Designer for Hireup. Her leadership has helped both ventures achieve significant impact and scale.

*Now known as Be Good

Passion unlocks potential

“Education has the power to change lives. As the world faces unsustainable levels of inequality, we need to create inclusive, resilient and quality education systems that are fit for the future.”

Linda Brown
President, Torrens University Australia

2021 entry changes

Removal of ATAR requirement

At Torrens University Australia, we take a strengths-based approach to teaching. While the ATAR is a reasonable indication of your performance, this number doesn't necessarily recognise your hard work or the areas where you really shine. We believe your individuality and potential are better indicators of future success.

We have removed ATAR as the key admissions criteria for high school students aiming to study with us. Instead, future students with recent secondary school education will now be guaranteed admission if they have a Year 12 certificate (Australian secondary school certificate) or equivalent.*

We want passionate humans, not perfect performance.

Alumni
story

"I gained insight into the industry and was able to share my knowledge."

How did studying at Torrens University change your life?

It gave me the opportunity to connect with a network that I would not have been able to reach without the MBA degree. It provided me with a lot of credibility, and sparked curiosity with those I met.

What has been your career highlight? Working at Football NSW with elite development squads and having the ability to work at two professional clubs overseas. I gained insight into the industry and was able to share my knowledge with leading professionals.

Course overview

Business

Diploma of Business

CRICOS 090282F

Pursue the foundations of leadership.

Establishing top-level skill sets and networking prowess, you will gain invaluable commercial knowledge, learn to engage critically and strategically, and develop the ability to identify smart partnerships and opportunities. A combination of theoretical research and practical experience leads the way to analysis of domestic and international environments, and development of effective business and marketing strategies. Upon successful completion, you are guaranteed entry into the second year of our Bachelor of Business programs.

Course highlights:

- Understand the importance and how-to of generating a strong network list
- Develop organisation strategies to pave the way to success
- Analyse domestic and international business trends so you can always stay on top
- Learn critical thinking and strategic planning in an enterprise context
- Identify the difference between smart business opportunities and unrealistic sinkholes
- Learn effective marketing techniques across an array of industries

Duration: 1 year

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Administrative Officer

Support professionals and ensure organisations run smoothly, performing a wide range of administrative tasks.

Average salary: \$55,799–\$81,228

Customer Services Officer

Fulfil the needs of customers by ensuring they have positive interactions with businesses.

Average salary: \$50,307–\$72,574

Accounts Clerk

Monitor the financial health of businesses, while performing bookkeeping, invoicing and clerical tasks.

Average salary: \$48,810–\$66,495

Potential careers:

Conference Coordinator

Keep hundreds of plates spinning as you organise and run corporate events with flair... and a cool head.

Average salary: \$61,250–\$70,150

Event Planner

Liaise with stakeholders to plan, promote and produce a memorable occasion that runs smoothly for all involved.

Average salary: \$53,625–\$114,339

Venue Manager

Take charge of upkeep, day-to-day operations and marketing your space for conferences, awards nights, parties and other events.

Average salary: \$60,000–\$119,208

Diploma of Event Management

CRICOS 094182M

Behind every memorable occasion lies the blood, sweat and tears of the people who made sure it ran smoothly.

This course provides industry expertise, paving your way through the process of managing events, with a focus on marketing, strategy and general operations. You'll learn how to develop and manage exciting cultural and social activities while meeting the expectations of clients and the needs of participants. Upon successful completion, you are guaranteed entry into the second year of our Bachelor of Business programs, including Bachelor of Business (Event Management).

Course highlights:

- Strategise effective marketing techniques which will put your events into the "must-attend" category
- Identify statutory requirements and their limitations
- Develop foundational event management business practices
- Understand how to successfully manage large-scale cultural and social activities
- Learn the art of promotion and how it directly ties into the success of an event

Duration: 1 year

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Alumni story

"Torrens University is an amazing place to be and study, filled with so many opportunities. It's very different to the average university – and that just makes the learning so much more fun."

Why have you chosen your course? What do you enjoy the most about it?

I have wanted to be an events manager my whole life, so this course is perfect for me. I love the hands-on aspect of the course. I love that we get to learn about the industry through lecturers who are actually working in the jobs we want to be in.

What is the best part of your studies?

I think the best part would have to be meeting people and other students who are just as passionate and excited about events as I am. Having people to fangirl over wedding decorations and list-making is pretty fun.

Madison Browne

Bachelor of Business
(Event Management)

“The most significant and interesting part about gaining work experience while studying is seeing the tangible, real-life implementation of the theory you are being introduced to. Having both a theoretical base and practical experience in the business world is invaluable to your growth in any professional sphere.”

Yoshni Chandra
Bachelor of Business

Courses: Business

Diploma of Marketing

CRICOS 092485A

Dare to become the influencer.

In this course, you will develop strategic and innovative marketing campaigns, learn about customer engagement and influence, and establish an aptitude for brand loyalty that keeps customers coming back. Looking at the modern market through an ethical lens, you will examine industry trends, identifying the sweet spot between needs and opportunities. Upon successful completion, you are guaranteed entry into the second year of our Bachelor of Business programs, including Bachelor of Business (Marketing).

Course highlights:

- Channel your creativity into strategic and innovative campaigns
- Learn how to engage with customers before influencing their behaviour
- Explore the ebb and flow of industry trends and their relevance to the work
- Identify branding opportunities, and what makes a brand unique
- Understand the role of ethics in contemporary marketing

Duration: 1 year

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Marketing Officer

Develop and implement advertising campaigns and related activities to raise awareness of products and services.

Average salary: \$60,325–\$106,856

Media Planner

Bring marketing objectives to life with a selection of suitable media platforms, in conjunction with clients, audiences and other stakeholders.

Average salary: \$86,117–\$126,679

Assistant Brand Manager

Take responsibility for promoting and maintaining the specific character of a brand, through social media and major campaigns.

Average salary: \$49,355–\$90,000

Potential careers:

Business Analyst

Review processes, create efficiencies and create an atmosphere of continuous development within organisations.

Average salary: \$82,212–\$141,442

Database Designer

Determine the optimum way to store data, and how pieces of information will interact with each other for maximum efficiency.

Average salary: \$99,900–\$142,160

Business Development Manager

Identify new markets and customers while seeking out fresh partnerships and paths to expansion.

Average salary: \$67,500–\$175,000

Diploma of Business Information Systems

CRICOS 0100552

All innovative enterprises are built upon a skeleton of information systems.

By completing this course – co-designed with industry partners – you will be equipped with a flexible, interdisciplinary toolkit which will be useful across a variety of organisations and roles. Upon successful completion, you are guaranteed entry into the second year of the Bachelor of Business Information Systems.

Course highlights:

- Establish technical expertise in planning, designing, implementing and maintaining information systems
- Discover how information systems are used as analytical tools
- Develop technical interpretative knowledge to solve and array of workplace issues
- Facilitate business development through strategic and operational activities
- Learn how various information systems work across a range of industries
- Understand which solutions are realistic within their respective sectors

Duration: 1 year

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of Business

CRICOS 090275E

Get among the hustle and bustle.

As a Bachelor of Business graduate, you will be ready to land managerial positions within leading organisations, or run your own show as an entrepreneur. A developed expertise on domestic and international business analysis will go hand-in-hand with effective marketing campaigns and the ability to identify exciting and strategic opportunities. You'll have the toolkit required to grow established businesses, and the ability to drive small- or medium-sized enterprises to thrive in their competitive markets.

Course highlights:

- Undergo 320 hours of practical work placement
- Develop managerial skills suitable for a range of prominent organisations
- Become an expert in domestic and international business development
- Create effective marketing campaigns, taking business to the next level
- Learn how to identify opportunities for growth and expansion
- Hone business development skills and an extensive network
- Harness entrepreneurial theory to successfully run your own business

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Sales Manager

Recruit and train a sales team, maintain client relationships at a top level and liaise with relevant stakeholders to expand your business.

Average salary: \$59,800–\$170,000

Business Development Manager

Identify new markets and customers while seeking out fresh partnerships and paths to expansion.

Average salary: \$67,500–\$175,000

Operations Manager

Play a leading role in developing strategies, overseeing organisational change and improving processes.

Average salary: \$77,500–\$151,400

Potential careers:

Business Manager

Oversee an organisation's day-to-day activities and ensure workers are aligned with its goals.

Average salary: \$70,000–\$152,962

Entrepreneur

Follow your dreams, chase that gap in the market and open up new vistas of industry.

Average salary: \$69,704–\$150,124

Start-Up Manager

Pull together every resource at your disposal to grow and develop a business from scratch.

Average salary: \$65,500–\$173,100

Bachelor of Business (Entrepreneurship)

CRICOS 095229D

Step aside Richard Branson, the next generation of game-changers are coming through our Bachelor of Business in Entrepreneurship.

This hands-on degree will give you the invaluable skills you need to take your ideas and transform them into your own start-up or smart business innovation. You'll learn the principles of business, leadership, marketing, finance, fundraising and entrepreneurship; plus gain real experience in exciting industry placements. You'll graduate ready to solve the diverse entrepreneurial challenges that new ventures and established organisations face.

Course highlights:

- Undergo 320 hours of practical work placement
- Understand exactly how to get the most of people and organisations
- Ideate solutions to solve ethical and sustainable business problems
- Learn to nail any negotiation and successfully make the sale
- Practise the art of marketing to make an impact
- Master financing and funding skills
- Discover how to manage an unforgettable customer experience

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of Business (Event Management)

CRICOS 090278B

An event without a planner is just a wish.

Put your fingerprints on the world of event management, creating innovative and large-scale events to meet and exceed the expectations of clients and their participants alike. On the one hand, you'll strive for "exciting and memorable", on the other, you'll be adhering to relevant legal regulations and taking care of the small details. In this course, industry professionals will guide you through all aspects of event marketing, public relations, event policy and logistics.

Course highlights:

- Undergo 320 hours of practical work placement
- Create smooth-running large-scale events, leaving guests inspired
- Become an expert on events policy and statutory requirements
- Discover the importance of public relations and winning over communities
- Launch eye-catching and exciting marketing strategies based around functions
- Develop experience in handling logistical issues and problem-solving on the fly
- Master the managerial and delegation skills that make running great events possible

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Events Manager

Establish the aims and scope of events, then develop and organise every element that will make the occasion a success.

Average salary: \$60,000–\$141,102

Wedding Planner

Draw upon a large range of contacts to ensure every couple has the resources to turn their dream of the big day into reality.

Average salary: \$57,500–\$80,000

Promotions Manager

Generate interest in events, liaise with sponsors for funding and add-ons, and ensure the world is aware of what you're planning.

Average salary: \$83,200–\$200,000

Potential careers:

Market Researcher

Analyse data and information to determine market strengths and weaknesses, helping stakeholders make informed decisions.

Average salary: \$66,675–\$175,000

Communications Manager

Design communication strategies and create the collateral to spread your organisation's message to targeted audiences.

Average salary: \$85,141–\$148,612

Social Media Specialist

Create up-to-the-minute interactions with an audience in real time, curating brand stories and fostering genuine conversations.

Average salary: \$53,310–\$100,000

Bachelor of Business (Marketing)

CRICOS 090279A

It's not what you sell, but how you sell it.

Discover the important role marketing plays in successful organisations across the board. The course is a hands-on degree that shapes you into a master of brand strategy. Placement in work environments provides firsthand industry experience to complement your theoretical knowledge, so you can discover what works for you. Develop your personal abilities through strategic marketing, analysing industry trends and applying theories within an ethical context.

Course highlights:

- Undergo 320 hours of practical work placement
- Apply for a workplace industry placement with marketing professionals
- Understand the concept of influence and use it to create unforgettable engagement
- Discover how to develop brand loyalty to create a connection with the customer
- Facilitate exciting and strategic marketing campaigns to catch consumers' eyes
- Incorporate industry trends, needs and opportunities into masterful marketing

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of
Business (Sports Management)

CRICOS 090265G

Have you ever dreamt of managing your own sports team, cheering on as they fight for victory? This could be the game for you.

In addition, this course teaches all the facets of running sporting facilities and centres, sports marketing and event coordination. You will build a range of key technical and theoretical skills through investigating socio-cultural influences and historical foundations of sport through a managerial context, and the role governance plays. On graduation, you can continue your studies with an MBA in Sports Management, which is delivered in partnership with Real Madrid Graduate School – Universidad Europea.

Course highlights:

- Undergo 320 hours of practical work placement
- Establish marketing techniques to win over communities of differing sizes
- Identify and analyse important socio-cultural influences in sport
- Learn the role of governance in sport, and how to use it to your best advantage
- Become involved in building and binding communities through the love of the game

Duration: 3 years

📍 Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Sport Event Manager

Plan, organise, lead and deliver sporting events, bringing together complex elements behind the scenes to make exciting contests possible.

Average salary: \$124,341–\$140,000

Sporting Facility Manager

Maintain the safe and efficient operation of club assets, including elements such as upkeep, repairs and security, as well as more detailed requirements.

Why Health and Nursing at Torrens University?

Practical experience is a hallmark of our innovative educational philosophy, which puts the critical issues of your future profession front and centre. We are committed to leading research and finding solutions to the world's health challenges, and you will graduate with the confidence and ability to handle yourself in your career.

Future-focused, with a solid past

Our respected health qualifications come backed by six decades of excellence, and a strong emphasis on the needs of tomorrow's industry.

Work-integrated learning

Theory is important, but our educational philosophy gets you working in real clinics with genuine clients as soon as possible, grounding you in the realities of the field.

Graduate job-ready

Our programs are designed and taught in partnership with the health industry, by educators who are actively working and know what the system requires most.

Alumni
story

What was the best part of the hands-on side of your course?

Age placement was fantastic, especially mental health. I know a lot of facilities give mental health placements in aged care, but we were able to have it in an actual mental health hospital. We had varied cases that we wouldn't have otherwise experienced.

What advice do you have for incoming students?

Make sure you're there for every lesson and really listen. If you're there to listen, you really learn, and it helps so much further down the road – especially with tests and assignments. Also, talk to your educators. Getting a real, close bond with them really helped me, because if I had an issue with any assignment, I could comfortably message them and get advice.

Caitlin Bridges-Hunt
Diploma of Nursing

Course overview

Health & Nursing

Diploma of Beauty and Spa Practice

CRICOS 094184J

Become a purveyor of relaxation and rejuvenation as a certified beauty, spa and wellness practitioner. Leveraging our experience with Australian National College of Beauty, this course provides diverse proficiencies in high-demand beauty and spa treatments. Theoretical and scientific knowledge combined with practical experience will develop you into a fully trained beauty professional who can help people look and feel their absolute best. If you're passionate about the wellbeing of others, this could be the avenue for you.

Course highlights:

- Enjoy a collaborative learning environment that maximises engagement
- Understand the scientific aspects behind beauty and spa treatments
- Discover the art of making decisions on which treatments are best suited to each client's needs
- Learn how to safely use beauty and spa-related technology, ensuring comfortable and smooth appointments
- Sharpen your communication skills to increase both customer confidence and sales

Duration: 1 year

Location: Brisbane, online

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Beauty Therapist

Conduct skin analyses and administer treatments to help people look and feel their best.

Average salary: \$48,263–\$67,665

Salon Manager

Manage budgets and client lists, building a strong reputation for quality with the support of your staff.

Average salary: \$52,230–\$83,600

Industry Trainer

Help other budding beauty therapists and specialists master their skills, tailoring your lessons to their situation.

Average salary: \$75,000–\$81,502

Courses: Health

Diploma of Health Science

CRICOS 099640E

Designed as a way to dip your toe in the water of complementary health before deciding if you want to commence one of our clinical degrees, this course functions as the first year of a bachelor. It is also a gateway to a rewarding career in the broader industry. You will have the option to specialise in Nutrition, Naturopathy and Herbal Medicine, or Public Health.

Course highlights:

- Understand the core principles of biological and social sciences
- Explore how the body functions in a health context
- Develop an expertise in communication, to provide more effective care
- Hone your research skills, focusing on the importance of evidence-based practice

Youth Worker

Become somebody to lean on for young people in need of guidance and help in determining their future.

Average salary: \$58,391–\$101,827

Domestic Violence Support Worker

Help people get to a better place with information and support that suit their particular situation.

Average salary: \$45,857–\$75,858

Gambling Addiction Support Worker

Provide the advice, counselling and strategies that help people overcome their harmful habits.

Average salary: \$45,857–\$75,858

Diploma of Counselling and Communication Skills

CRICOS 094183K

One of the first higher education courses of its kind in Australia, this diploma is intellectually challenging with a focus on the real world.

Learn about human development, communication skills and the fundamentals of counselling. Combine a foundation of theory with practical experience in developing strategies and techniques helpful in therapy services. After developing your counselling skill sets, you are provided the opportunity to complete professional work placement in your chosen field.

Course highlights:

- Analyse the impact of society and culture on the counsellor-client relationship
- Explore an array of theoretical perspectives on counselling
- Discover the drivers for human behaviour
- Learn how to evaluate different situations to determine your best approach
- Study the core principles of case management
- Bring it all together with exposure to genuine clients

Duration: 1 year

Location: Sydney, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Diploma of
Health and Wellbeing

Every aspect of your lifestyle directly relates to your health and happiness.

Make a difference by empowering people to lead healthier lives through physical activity, better leisure choices and dietary advice. Through this course, you will be influencing people from all walks of life to lead healthier lifestyles, within a context of global health challenges and the role of communities. You will learn how to increase human function, promote social and emotional wellbeing, and design bespoke exercise programs. A pathway into the Bachelor of Public Health is available with one year of credit following completion of your diploma.

Course highlights:

- Promote movement and overall healthier lifestyles to create stronger communities
- Understand the importance of human nutrition in living happy, fulfilling lives
- Develop strategies in enhancing quality of life for people in different phases, from the young to the elderly
- Gain a true understanding of challenges such as heart disease, obesity and depression
- Make a real difference in coaching special populations in health and wellbeing

Duration: 1 year

📍 Location: Online only

Study options: Full-time or part-time online

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

School Wellness Coordinator

Take responsibility for empowering students to make better decisions for their health, through dietary and exercise programs.

Average salary: \$57,000–\$83,044

Health and Wellbeing Officer

Average salary: \$46,000–\$90,000

Research and Development Officer

Stay on the cutting edge of this field, making new discoveries that deepen our understanding of this fascinating practice.

Average salary: \$65,000–\$147,000

Bachelor of Health Science (Chinese Medicine)

CRICOS 102914J

Work in harmony with the human body to prevent disease, under this fascinating ancient discipline.

This course will see you harnessing the power of yin and yang to holistically restore and maintain balance. Learning the details of a primary healthcare system that dates back thousands of years, you will take a holistic approach to the body, mind, spirit and emotions as an interlinked system. In our student-led clinic, expert practitioners will put you on the path to guiding the flow of qi, facilitating total harmony and health in members of the public. Experience is embedded throughout the course, allowing you to apply the lessons learnt in the classroom in a variety of practical environments.

Course highlights:

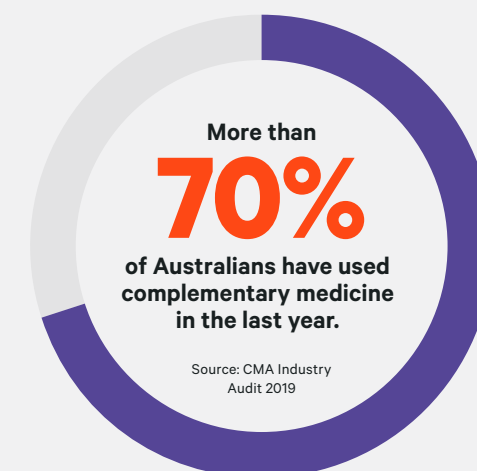

- Learn to safely prescribe and dispense Chinese herbs to treat a variety of diseases
- Safely apply acupuncture, and discover the practical application of ancillary techniques for its clinical practice
- Understand how to maintain and enhance health through lifestyle, cultivation of the mind, physical exercise and diet
- Apply ancillary techniques such as cupping and moxa therapy
- Undergo practical experience at our student-led clinic, The Practice Wellbeing Centre, consulting with members of the public under the guidance of experienced practitioners
- Prepare to practice confidently in the community

Duration: 4 years

Location: Melbourne

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 or equivalent with ATAR 60

Potential careers:

Myotherapist
Assist clients in the evaluation and treatment of musculoskeletal pain in a variety of clinics.
Average salary: \$54,000–\$137,000

Bachelor of
Health Science (Clinical Myotherapy)
CRICOS 084579F

Musculoskeletal conditions are at the core of myotherapy, which draws from a range of Western medical principles. You'll focus on prevention, rehabilitation and function through the lenses of physiology, anatomy and biomechanics. Under the guidance of industry experts, you'll explore manual therapies such as dry needling and rehabilitative exercise, examining and controlling pain caused by soft tissue injury and restricted joint movement. This discipline also stresses the importance of personalising treatment programs to individuals, in order to reach optimal health outcomes.

- Course highlights:
- Learn the correct method of using myofascial dry needling to eliminate trigger points
 - Explore a range of manual therapies in a hands-on setting
 - Study the biological and social sciences behind this discipline
 - Master joint mobilisation and pain management

Duration: 3 years

📍 Location: Melbourne

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Provided by Think: Colleges Pty Ltd,
CRICOS Provider Code: 00246M

Bachelor of
Health Science (Clinical Nutrition)
CRICOS 099642C

“Our food should be our medicine and our medicine should be our food.” That is as true today as it was in Hippocrates’ day (circa 4000BC). Get back to the roots of health science with this course, which offers understanding of the complex relationship between food as a traditional medicine and dietary therapy using recent scientific advances in nutritional biochemistry and therapeutics. Graduate ready to use your nutritional education to enrich wellbeing while fending off illness and disease.

- Course highlights:
- Gain hands-on experience working with public patients
 - Create effective meal plans that meet client expectations
 - Master the secrets of food and how they can be effectively balanced
 - Learn scientific advances in nutritional biochemistry and how they can be implemented into everyday life

Duration: 3 years

📍 Location: Sydney, Melbourne, Brisbane

Average salary: \$72,500–\$168,694

Research and Development Officer
Stay on the front line of this field, making new, cutting-edge discoveries that deepen our understanding of this fascinating practice.
Average salary: \$44,273–\$124,038

Bachelor of
Health Science (Naturopathy)
CRICOS 099643B

Harness the power of nature in a traditional system of medicine which aims to restore vigour by supporting and stimulating the body's own healing mechanisms. Throughout this course, you will gain specialist knowledge in clinical nutrition, Western herbal medicine, lifestyle and other traditional healing methods. You will learn patient-centred approaches which incorporate traditional and research knowledge to inform in an effective and ethical practice. Under expert supervision, you will have hands-on experience as a naturopath in a student clinic, treating genuine clients with real-life issues.

- Course highlights:
- Learn to work within a collaborative health environment to achieve best client care
 - Explore an array of traditional healing methods from across human history
 - Consider the role of naturopathy within a public health context
 - Interact with the public at the Think Wellbeing Centre, under the guidance of experienced naturopaths

Duration: 4 years

📍 Location: Sydney, Melbourne, Brisbane

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of
Health Science
(Western Herbal Medicine)

CRICOS 099641D

Western herbal medicine means literally getting back to the roots of medicine, stemming as it does from the practices of European and Anglo-American traditions. A modern practitioner will understand the history and philosophy of herbal practice, allowing them to create effective herbal prescriptions from a range of medicinal plants around the world. Throughout this course, you will use evidence-based research in making decisions. You will develop a deep knowledge of health science, clinical assessment, pharmacology, herbal synergy and safety issues. An expert supervisor will provide you with hands-on, real-life experience.

Course highlights:

- Explore herbal history, philosophy and principles of practice
- Discover the role of research and evidence in determining the most effective treatments
- Learn the innate properties of herbs and herbal pharmacology
- Work with the different forms in which herbal medicines may be prescribed, such as liquid extracts, infusions and external preparations like ointments and lotions

Duration: 3 years

Location: Sydney, Melbourne, Brisbane

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Western Herbal Medicine Practitioner

Establish your own practice and use a holistic approach to healthcare in service to others.

Average salary: \$76,700–\$251,836

Product Developer

Collaborate with fellow experts to design and distribute products that improve people's lifestyles.

Average salary: \$59,500–\$161,500

Industry Trainer

Help other would-be herbalists master their skills by passing on your wisdom.

Average salary: \$75,000–\$81,502

Potential careers:

Food Technologist

Develop and improve the foods we eat for better health and sustainability outcomes.

Average salary: \$55,197–\$90,500

Nutritionist

Analyse and design dietary and health programs on an individual, community and population level.

Average salary: \$45,093–\$128,091

Community Education Officer

Raise awareness of nutritional issues and help people to improve their general health and wellbeing.

Average salary: \$61,810–\$102,770

Bachelor of
Nutrition

CRICOS 090268D

Make a positive contribution to varying populations and individuals by mastering the applications of nutrition in a variety of contexts.

This means approaching the topic from different perspectives, including anatomy, physiology, biochemistry, nutritional policy, diet and disease. With a focus on practical application of these areas, and the opportunity to gain industry skills, you will graduate equipped with the capability and knowledge required to commence a career in nutrition.

Course highlights:

- Understand the nutritional needs of both communities and individuals
- Develop health programs to target specific issues
- Analyse dietary data on a population level
- Explore the needs of the human body when healthy and when ill
- Gain real-world experience with a special populations project

Duration: 3 years

Location: Online only

Study options: Full-time or part-time online

Entry requirements: Year 12 certificate (or equivalent)

Courses: Design & Creative Technology

Why Design & Creative Technology at Torrens University?

Our Design and Creative Technology faculty, Billy Blue College of Design, offers an innovative approach that has been tested and iterated across decades. We exist to turn a passion into a career by marrying practical skills with a comprehensive deep dive into the theory behind them.

Take advantage of 30+ years of design excellence

Billy Blue was born in the '70s by a collective of design mavericks. The result being a college committed to pushing design boundaries while remaining commercially relevant and, above all, exciting.

By industry, for industry

Our lecturers are leading designers, studio owners, UX moguls and product developers. Know what they know, know who they know, and you'll be set for a great career. We were born from industry and our graduates are at the forefront of their field.

Work-integrated learning

You need experience to get a job, and a job to get experience. At Billy Blue you'll graduate having worked on real briefs for genuine clients, and grow your industry connections with our integrated internship opportunities.

Diploma of Graphic Design
Graphic Designer FROST* Collective
Vogue Australia Intern 2018

Diploma of 3D Design and Animation

CRICOS 103343J

The course is a perfect stepping stone towards an exciting career in 3D Design and Animation as well as an entry point into one of our bachelor degrees. A Diploma of 3D Design and Animation provides a base of knowledge around general 3D principles and practice, as well as an introduction to specialist areas in the field. Graduate in 12 months with our accelerated Diploma of 3D Design and Animation. Not only will you get all the foundational skills in game design, 2D and 3D animation and production, you'll also wrap up with a professional portfolio, showreel and backlog of industry projects to stroll into any studio.

Course highlights:

- Build a strong foundation of cutting-edge 3D principles and practice
- Learn the foundations of procedural modelling and animation from a Houdini certified school
- Develop 3D skills and pipelines to work with game development and real-time animation workflows
- Work with industry-standard creative processes, advanced challenges and briefs

Duration: 15 months or 1 year accelerated

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

3D Animator

Create and animate humans, objects, backgrounds and more for motion pictures, video games, commercials and TV, bringing a director's vision to life.

Average salary: \$60,000–\$100,000

3D Games Artist

Work collaboratively with teams of artists and engineers to create characters, buildings, environments, UI and VFX, from start to finish.

Average salary: \$52,260–\$161,363

Digital Matte Artist

It's the fun brother to the more traditional matte painter. Create photo-realistic interior and exterior environments for a range of projects.

Average salary: \$45,000–\$60,000

Potential careers:

Fashion Designer

Use research skills to move ahead of the latest trends, source fabric and trims for new designs, and build prototypes.

Average salary: \$52,000–\$97,500

Stylist

Coordinate outfits for clients, models and shoots, staying firmly on trend or going your own way.

Average salary: \$47,000–\$96,900

Fashion Buyer

Oversee the purchase of clothes and accessories for a business, targeting specific markets and price points.

Average salary: \$58,000–\$90,000

Diploma of Branded Fashion Design

The fashion industry is looking for a new breed of designer: individuals who have the passion and knowledge to produce for success.

Our industry-first approach will give you a foundational introduction to the field, so you can gain an understanding of how to produce commercial designs and develop an eye for the most creative, strategic and sustainable solutions to fashion's challenges. You'll build the branding skills to back your passion along with the knowledge to do it sustainably and ethically. From here you can move directly into a full Bachelor of Branded Fashion Design, or get straight to work in the industry.

Course highlights:

- Conjure your designs with technical drawing skills
- Learn the importance of shape and form
- Explore the difference between clothing and fashion
- Position your work in the broader design context
- Work with professional tools and practices in the studio
- Develop a commercial awareness of how to build and sustain a brand
- Understand fashion's biggest challenges and how you can solve them
- Build and finesse your portfolio

Duration: 1 year

Location: Sydney, Melbourne, Brisbane

Study options: Full time or part time on campus, or blended

Entry requirements: Year 12 certificate (or equivalent)

Diploma of Design

CRICOS 094008C

This is the university equivalent of a sample platter: you can undertake study in four specialist areas – Branded Fashion Design, Communication Design, Digital Media Design and Interior Design – to see which area is right for you.

You don't need a design background to enrol, and you can move on from here to a more specialised area of study, taking your credits with you into a bachelor degree.

Course highlights:

- Gain a broad spectrum of skills in the design space
- Build a foundation of general knowledge that will serve you across all disciplines
- Work with an array of media and tools
- Experiment to discover your own personal design style
- Cross-pollinate to create bold new forms of communication
- Find out what works for you and, more importantly, what doesn't

Duration: 1 year

Location: Sydney, Melbourne, Brisbane

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

2D/3D Animator

Bring drawings to life with a range of tools including lighting, colour and movement.

Average salary: \$61,250–\$105,118

Junior Interactive Designer

Create the elements within a product or service that allow the end user to seamlessly interact with your work.

Average salary: \$45,000–\$90,000

Graphic Designer

Combine visual media and typography to create layouts, logos, infographics and other creative things.

Average salary: \$55,000–\$104,393

Diploma of
Film and Video
CRICOS 103349C

If you're someone who prefers to be behind the camera than in front, we've got news for you. The Diploma of Film and Video introduces a range of skills and knowledge found in film production. It develops an understanding of screen-based video production and post-production along with basic skills developed in cinematography, lighting, editing, colour grading and sound design. It's a perfect stepping stone towards an exciting career in film and video as well as an entry point into one of our bachelor degrees.

- Course highlights:**
- Learn the foundations of screen-based video production and post-production
 - Develop your understanding of cinematography, lighting, editing, colour grading and sound design
 - Learn the fundamentals of digital design including industry-standard design software skills, photography and motion design
 - Graduate with a professional portfolio and work experience to give you a kickstart in the industry

Duration: 15 months or 1 year accelerated

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

- Production Assistant**
Support development teams through the journey from design to creation, playing a role in every step of the process.
Average salary: \$49,711–\$140,442
- Compositor**
Combine visual elements from multiple sources to create stunning and visually satisfying images and videos.
Average salary: \$50,000–\$70,000
- Video Editor**
Get involved in the production and post-production of a film project to create seamless stories.
Average salary: \$50,000–\$80,000

Courses: Design & Creative Technology

Potential careers:

- Junior Games Designer**
Work closely with Senior Designers to deliver world-class gameplay experiences.
Average salary: \$45,000–\$90,000
- 2D Game Artist**
Develop 2D visual assets like characters and backgrounds using industry-leading tools.
Average salary: \$40,000–\$110,000
- 3D Game Artist**
Work collaboratively with teams of artists and engineers to create characters, buildings, environments, UI, and VFX, from start to finish.
Average salary: \$55,000–\$140,000

Diploma of
Game Design and Development
CRICOS 102263F

Welcome to the world of game design and development. This diploma will be your introduction to the full spectrum of game art and design. From visual design fundamentals to illustration, game design conception and introductory development processes. You will graduate with the necessary technical skills and exposure to game development to walk into an entry-level Game Designer role or continue your studies into the bachelor degree.

- Course highlights:**
- Collaborate with other game artists and programmers
 - Develop your artistic style and technical skills
 - Learn the art of collaborative story construction
 - Learn the tools and 3D construction techniques used by industry-leading studios
 - Develop a commercial awareness of ethical game art and its impact on development teams and global communities

Duration: 1 year

Location: Sydney, Melbourne, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Diploma of
Graphic Design
CRICOS 102489K

We spend our lives surrounded by the work of graphic designers, from the revamped label on that can of cola to the emojis on our phone, even the font you're reading. The Diploma of Graphic Design is our flagship course and connects deeply with our college's heritage. Continue the work of our creative maverick founders, breaking boundaries and reshaping society – all with the power of your imagination.

- Course highlights:**
- Learn the language of graphic design
 - Discover the powerful uses of typography in creating meaning
 - Work with photography or illustration to create original works
 - Master industry-standard software and related tools in a technical environment
 - Enhance your design awareness and problem-solving skills
 - Prepare yourself for a career in the industry with hands-on experience
 - Build and finesse your portfolio for a job you love

Duration: 15 months or 1 year accelerated

Location: Sydney, Melbourne, Brisbane, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

- Graphic Designer**
Combine visual media and typography to create print, web or packaging design solutions.
Average salary: \$55,000–\$104,393
- Magazine and Publishing Designer**
Tell the visual side of a story, supplementing and undergirding the written word with flair and understanding of an audience.
Average salary: \$52,500–\$95,000
- Front-End Web Designer**
Lead the way in defining layouts, styles and other visual and interactive components of a website, app or digital collateral in-house or as a freelance creative.
Average salary: \$65,000–\$97,000

Diploma of
Interior Design and Decoration

CRICOS 102491E

Interior design and decoration is an ever-changing world of textiles, colours, joineries, finishes, balance and more.

Crafted to give a theoretical and technical knowledge base, our diploma is your first step in the door to an entry-level role or the kickstart you need to practice design on your own. From here, you can move directly into a full Bachelor in Residential or Commercial Interior Design.

Course highlights:

- Learn to illustrate your ideas before turning them into a reality
- Build a knowledge base of products, services, the history behind them and the stories they tell
- Master industry-standard software: CAD
- Discover the art of analysing and realising a brief for a specific audience or market
- Experiment with an array of materials and finishes
- Work on real briefs and gain studio experience that prepares you for the industry
- Build and finesse your portfolio

Duration: 15 months or 1 year accelerated

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Interior Decorator

Design the overall aesthetic of an indoor space, using colours, light, furniture and other elements.

Average salary: \$50,000–\$151,500

Materials and Furnishing Consultant

Offer analysis and advice on sourcing and using the optimum ingredients for the best interior design results.

Average salary: \$45,000–\$100,000

Junior Interior Designer

From the graduation stage to an agency, this role will see you assisting and building a client base to lead projects and briefs.

Average salary: \$55,575–\$65,000

Potential careers:

Photojournalist

Get into the thick of the action, capturing live moments that sell and tell a meaningful story as it happens.

Average salary: \$55,000–\$92,000

Digital Image Retoucher

Make improvements or alter images according to client specifications, reshaping the raw photographic material into something new.

Average salary: \$52,000–\$94,000

Photographer

Weddings, international events, birthdays and celebrations of every scale – capture both candid moments and staged portraits to tell a story no one will forget.

Average salary: \$57,000–\$96,000

Diploma of
Photography and Photo Imaging

CRICOS 102490F

More than a vehicle for gathering social media likes, this is a professional, comprehensive qualification from which you'll learn the sturdy foundations for a photographic career that will outlast the ebb and flow of trends and apps.

You will graduate with a broad base of generalist skills and experience that cover both the Adobe software suite and hardware such as DSLR cameras, studio lighting and video rigs.

Course highlights:

- Work with light and lighting to enhance your photography
- Learn to think visually, and within a design context
- Experiment with colour management and workflow
- Explore both still image and video formats to develop your personal style
- Gain hands-on experience with industry-standard equipment and software
- Graduate with a folio of your own work

Duration: 15 months or 1 year accelerated

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Diploma of
Software Engineering

CRICOS 102264E

Our diploma is the perfect way to gain the technical and theoretical foundations you need to start out in the industry.

This is your chance to understand the fundamentals of software engineering and to specialise in either Artificial Intelligence or Game Programming. Graduates will understand the fundamentals of algorithm and data structure design, software engineering project management and ethical development and research practices. From here, you can move directly into a specialised bachelor or get straight to work in the industry.

Course highlights:

- Master the fundamentals of C++ and C# programming languages
- Learn how to construct mathematical solutions to common software engineering problems
- Understand data structure design and implementation
- Know the ethical implications of software engineering practices
- Explore the algorithms of software engineering solutions

Duration: 1 year

Location: Sydney, Melbourne, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

App Developer

Collaborate with a team to define, design, and implement new features to existing apps, or develop new apps using modern frameworks.

Average salary: \$79,086–\$138,112

Software Developer

Take the role of project lead, or design and develop software solutions used in AI, Cloud Computing or Game Programming.

Average salary: \$78,950–\$135,000

Junior Software Engineer

Find the answers to big problems. Be part of a team developing advanced software solutions to implement innovations.

Average salary: \$65,000–\$115,000

Potential careers:

Junior Digital Designer

Be a part of a team working on leading UX and UI projects, create digital collateral and be at the forefront of digital design innovation.

Average salary: \$52,000–\$94,000

Front-End Designer

Become a specialised designer who understands front-end development. Combine key components of computer code and aesthetic design.

Average salary: \$50,000–\$70,000

UX Designer

Support user behaviour and build intuitive designs. Anticipate digital user needs and create exciting experiences.

Average salary: \$80,500–\$145,000

Diploma of
UX and Web Design

CRICOS 103346F

Design meets technology, drawing meets coding, functionality meets psychology, computer meets... you get the drift.

The Diploma of UX and Web Design course develops your understanding of web-based design and development. The course combines practical coding and digital media skills with human-computer interaction. It's a perfect stepping stone towards an exciting career in UX design as well as an entry point into one of our bachelor degrees.

Course highlights:

- Specialise in cutting-edge interactive design work for using programming and artistry
- Develop practical skills for web and mobile design and development
- Learn a range of practical coding and digital media skills, from JavaScript to Python to Vue
- Specialise in UX to craft compelling interactive experiences for web and mobile
- Work with industry-standard creative processes, advanced challenges and briefs

Duration: 15 months or 1 year accelerated

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Fashion Designer

Work with iconic brands and see garments evolve from an idea to reality. Build spec sheets, coordinate samples and define the latest trend with every collection.

Average salary: \$52,785–\$97,500

Fashion Buyer

Study trends and customer behaviour to take charge of inventory management and support sales in a retail environment.

Average salary: \$58,000–\$90,000

Trend Forecaster

Evaluate designer collections and consumer patterns to determine the next big thing in the world of couture.

Average salary: \$56, 741–\$176,601

Bachelor of
Branded Fashion Design*

CRICOS 090293C

Imagine taking the plunge and launching your own fashion label. Would you start by coming up with a name? Work on the logo? Deciding on your fabrics? Where to sell it? How to promote it? We can help sort those priorities (and more) with a Bachelor of Branded Fashion Design. It will challenge both your creative and business mind – and will groom you for a world-class career as a Brand Fashion Designer, Production Manager, Buyer, Merchandise Planner or Product Developer. You'll graduate with a highly respected qualification, a clear understanding of a sustainable fashion economy, specialist design skills and a professional-calibre portfolio that opens doors.

Course highlights:

- Investigate the theory behind sustainable and ethical fashion design and marketing
- Experiment with artisanal and cutting-edge techniques and technology
- Find out how to create and manage the integrity and positioning of a brand
- Gain the skills you need to launch your own commercially successful label
- Graduate with the digital skills to produce industry-standard technical drawings, design line sheets, lookbooks and social collateral
- Create relationships with the industry unicorns we count as friends and partners

Duration: 3 years

Location: Sydney, Melbourne, Brisbane

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of
Communication Design*

CRICOS 090295A

Design has been a form of communication since the first cave paintings depicted warriors battling mammoths. This degree continues that tradition by focusing on the creation of visual messages, ideas and information for a range of audiences. The emphasis here is on creativity, design thinking, collaborative practice and problem-solving. You will have the opportunity to complete a work placement before you graduate. Excitingly, can also choose a series of elective courses and specialise in Graphic and Communication Design, UX and UI, Film and Video, Animation, or Photography and Photo Imaging.

Course highlights:

- Explore typography, image generation and information design
- Learn the role of packaging and branded environments in creating meaning
- Gain the chance to complete an internship with one of our industry partners
- Develop broad visual communication design knowledge
- Focus on creating messages for a range of audiences
- Apply theoretical and technical knowledge to real-world outcomes

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Senior Graphic Designer

Set the tone and visual language for a product or service, guiding a team of designers to bring your vision to life.

Average salary: \$70,000–\$116,392

Interaction Designer

Bring digital experiences to life and concept, ideate and collaborate with Engineers, Creative Directors and Account Managers.

Average salary: \$75,000–\$130,000

Brand and Digital Designer

Bring brands to life through your print, digital, web and environmental designs. Work with clients and Art Directors to manifest a strategic creative direction.

Average salary: \$60,000–\$140,250

Potential careers:

3D Animator

Draw upon a toolkit of design skills to tell stories with image, motion and perspective.

Average salary: \$61,250–\$105,118

Environment Designer

Create the backdrops and settings in which animated or videogame characters live their digital lives.

Average salary: \$75,000–\$130,000

Visual Effects (VFX) Artist

Design and create effects and simulations for use in interactive storytelling, from spatial designs to manipulatable objects.

Average salary: \$80,000–\$87,000

Bachelor of
3D Design and Animation*

CRICOS 103341M

Creating worlds and characters, then bringing them to life.

It's the dream of many creative types, and here we give you the practical experience and knowledge to visualise the impossible and turn it into a reality. This is a hands-on course that teaches a broad and flexible range of skills, including modelling, rigging, texturing, lighting and compositing. The course incorporates industry-informed briefs, industry mentors, client projects and internship opportunities.

Course highlights:

- Explore design and animation theory and context
- Work with briefs and creative processes used by industry
- Gain the skills to tell the stories in your head
- Complement your specialisation with electives from other disciplines
- Experiment with the latest advances in technical hardware and software from games, animation, interactive and 3D production processes
- Master skills in 3D modelling, rigging, animation, texturing, lighting, compositing, character modelling and development

Duration: 3 years

Location: Sydney, Melbourne, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of
Film and Video*

CRICOS 103347E

Everywhere you look these days, from electronic billboards to the devices in our pockets, there are moving images – and each one of them is telling a story, whether it's a traditional narrative or selling you something.

A comprehensive education in everything you need to design and produce content for screens, this course covers both the practical, hands-on side of things as well as the theory that will enrich your creativity and storytelling abilities.

Course highlights:

- Develop skills in live action camera-based video production, with a focus on storytelling and cinematography
- Build a foundation of skills in visual effects, motion graphics, sound design, scriptwriting and compositing
- Plan and design for the best production outcomes in advance with the latest innovations in the film and production industry
- Graduate with a professional portfolio and work experience to give you a kickstart in the industry

Duration: 3 years

Location: Sydney

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Digital Video Producer/Videographer

Develop compelling digital content, filming, editing and publishing across platforms for a specific audience in-house, or build a suite of clients and be your own boss.

Average salary: \$48,750–\$117,000

Colour Grader

Process footage for different environments, different formats and different meanings by playing with contrast, colour, saturation and other elements.

Average salary: \$50,000–\$60,000

Motion Graphic Designer

Develop concepts, graphics and layouts with creativity and flair to present information in an interesting and accessible way.

Average salary: \$77,500–\$99,000

*Available as a double degree with the Bachelor of Business

Potential careers:

UX/UI Designer

Build systems with the specific needs of the end user in mind, bridging the gap between human and machine.

Average salary: \$80,500–\$145,000

Web Designer

Create interesting and functional online presences that meet the specific requirements of clients and organisations.

Average salary: \$65,000–\$97,000

Creative Director

Set the agenda from the top, taking charge of an array of projects under your umbrella to ensure consistency and org-specific identity.

Average salary: \$95,561–\$202,500

Bachelor of
UX and Web Design*

CRICOS 103344H

Right at the intersection of design, technology and psychology is one of the fastest growing and most career-rich sectors of the global economy: UX Design. This degree gives you the cutting-edge research in interaction design and front-end development skills to build your career. You'll graduate able to design and craft award-winning and compelling interactive experiences for web, mobile, social or completely custom platforms.

- Course highlights:
- Learn the fundamentals of a wide range of languages used in front-end development such as HTML, CSS, JavaScript, jQuery, Python and PHP in modern frameworks such as Greensock, React and Vue
 - Cover the theory and practice of contemporary UX design including the psychological elements of decision-making and digital interaction
 - Develop strategic thinking skills to approach problems from different perspectives
 - Graduate with a professional portfolio and work experience to give you a kickstart in the industry

Duration: 3 years

Location: Sydney, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of
Game Design and Development

CRICOS 095346K

What's a game without art? Even if you design a playable experience with nothing but ASCII symbols, you're still making an aesthetic choice. Thanks to the partnership with Sony Computer Entertainment Europe (SCEE), you will develop games for PlayStation® platform through the PlayStation® First Academic Development Program. This course is dedicated to the pursuit of creating breathtaking environments and characters for one of the biggest industries in the world. You'll work on industry-standard software alongside industry experts to design assets for immersive experiences. Torrens University Australia is the only higher education provider to offer this program in Australia.

- Course highlights:
- Gain practical industry insights from professionals
 - Collaborate with other game artists and programmers
 - Develop your artistic style and technical skills in parallel
 - Cover commercial skills and business realities in preparation for your career
 - Work within a design studio and a design context
 - Learn how to use animation to enhance your material

Duration: 3 years

Location: Sydney, Melbourne, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Game Artist

Shape the overall feeling of an interactive experience with a specific aesthetic and look.

Average salary: \$70,000–\$120,000

Texture Artist

Get specific with how elements of a digital world look when you zoom in, adding extra realism or detail according to the game's demands.

Average salary: \$75,000–\$130,000

3D Modeller

Add a layer of realism to games by building the three-dimensional elements that bring those worlds to life.

Average salary: \$70,000–\$170,500

Potential careers:

Interior Designer

Plan functional interior spaces that meet spatial and structural requirements and exude aesthetic appeal.

Average salary: \$68,000–\$99,000

Environmental Brand Strategist

Analyse the best combination of space and branding to underscore and supplement an organisation's character and voice within specific locations.

Average salary: \$75,000–\$134,000

Virtual Environment Designer

Create digital worlds before designing real-life ones, to solve problems in advance or for use in the gaming industry.

Average salary: \$75,000–\$130,000

Bachelor of
Interior Design (Commercial)*

CRICOS 090301G

Branding, lighting, sustainability and materiality: these are all core elements of any good commercial interior design, whether you're talking about hotels, bars and restaurants, exhibitions, workplaces or even virtual environments. In this course, which combines theory and practice, you will develop and assess design strategies in a learning environment that reflects the real world of interior design, and learn the role of emerging technologies in this vital discipline.

- Course highlights:
- Discover how commercial interiors can engage an audience
 - Use documentation, contract management and professional practice to make designs reality
 - Work with 3D modelling software for spatial projects
 - Explore emerging design technologies
 - Build your own professional portfolio as you hone your personal style
 - Reflect on the importance of environmentally sustainable practices

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Bachelor of
Interior Design (Residential)*

CRICOS 090302G

At heart, residential interior design is a language that speaks to the notion of a home as both a physical and mental place. In this course, you'll explore and respond to contemporary issues in interior design: our ageing population, homelessness, evolving gender roles and definitions of family. On the practical side, you will work with documentation, scheduling, professional design practice and the use of both new and environmentally sustainable materials.

- Course highlights:
- Create future-ready solutions that embrace new technologies
 - Work with industry-standard software and design tools
 - Unpack theoretical principles such as "frontier theory" to undergird the future of our homes
 - Understand the impact of lighting, joinery, furniture and technology systems
 - Apply for an internship with one of our leading industry partners
 - Explore the different types of homes in the 21st century

Duration: 3 years

Location: Sydney, Melbourne, Brisbane, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Interior Designer

Plan functional interior spaces that meet spatial and structural requirements and exude aesthetic appeal.

Average salary: \$68,000–\$99,000

Homelessness Solutions Strategist

Stay on the front line of research and development, creating and designing methods of helping society's most vulnerable.

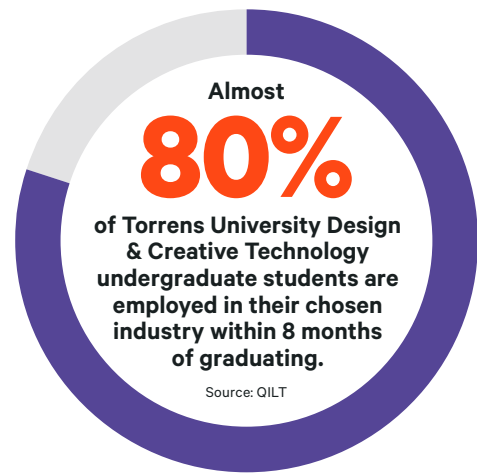

Average salary: \$51,027–\$133,450

Virtual Spaces Designer

Work with clients to solve interior design problems digitally. Liaise with industry stakeholders to achieve success.

Average salary: \$75,000–\$130,000

*Available as a double degree with the Bachelor of Business

1 in 4 designers are self-employed, making them a digital nomad who can work anywhere in the world.

Bachelor of Software Engineering (Artificial Intelligence)

CRICOS 099352B

Designed in partnership with IBM and Amazon Web Services, this course offers the opportunity to work on the front line of one of the most interesting and expanding fields in software engineering: the development of AI.

We've built this course to bridge the world of design thinking and AI, equipping students with the skills to plan and ideate strategic software solutions and the technical skills to execute them. With a combination of technical and core soft skills, it will arm you with a deep understanding of everything you need for a successful career in Artificial Intelligence.

Course highlights:

- Explore different models for pattern recognition
- Master the fundamentals of machine learning
- Work with natural language processing and speech recognition
- Learn the mathematics underscoring this field
- Use professional tools in cloud environments
- Discover the utility of data mining and visualisation

Duration: 3 years

Location: Sydney, Melbourne, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Systems Architect

Develop and implement computer systems and networks for organisations, to meet their bespoke requirements.

Average salary: \$50,000–\$153,345

App Developer

Collaborate with creative, digital and software teams to deliver world-class innovative apps.

Average salary: \$85,000–\$120,000

Software Engineer

Design, develop and maintain software systems at a range of complexity levels, to suit an organisation's specific needs.

Average salary: \$72,500–\$167,065

Courses: Design & Creative Technology

Potential careers:

Software Engineer

Design, develop and maintain software systems at a range of complexity levels, to suit an organisation's specific needs.

Average salary: \$72,500–\$167,065

Gameplay Programmer

Write the code that governs the actual experience of the player, from user interfaces to the construction of the game.

Average salary: \$64,000–\$126,155

Generalist C++ Programmer

Move between fields and industries, creating specialist programs with a general-purpose language.

Average salary: \$50,000–\$142,289

Bachelor of Software Engineering (Game Programming)

CRICOS 093341J

Thanks to the partnership with Sony Computer Entertainment Europe (SCEE), you will develop games for PlayStation® platform through the PlayStation® First Academic Development Program.

Put theory into practice as you move from 2D to 3D programming, design principles and creating graphical elements. By the time you graduate, you will have collaborated with fellow programmers and artists to create a commercially viable game. Torrens University Australia is the only higher education provider to offer this program in Australia.

Course highlights:

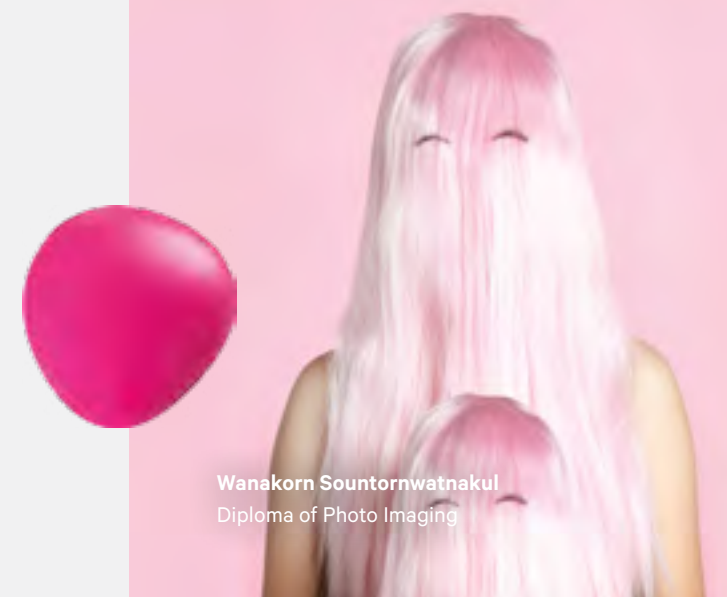

- Learn C++ and other coding languages
- Work with Unity and Unreal, the two main engines for game development
- Develop a suite of skills tailored to the creation of games
- Rapidly prototype games for enhanced iteration
- Explore the algorithms and data structures that underpin great game experiences
- Master physics and AI systems for greater challenges

Duration: 3 years

Location: Sydney, Melbourne, online

Study options: Full time or part time on campus, online or blended

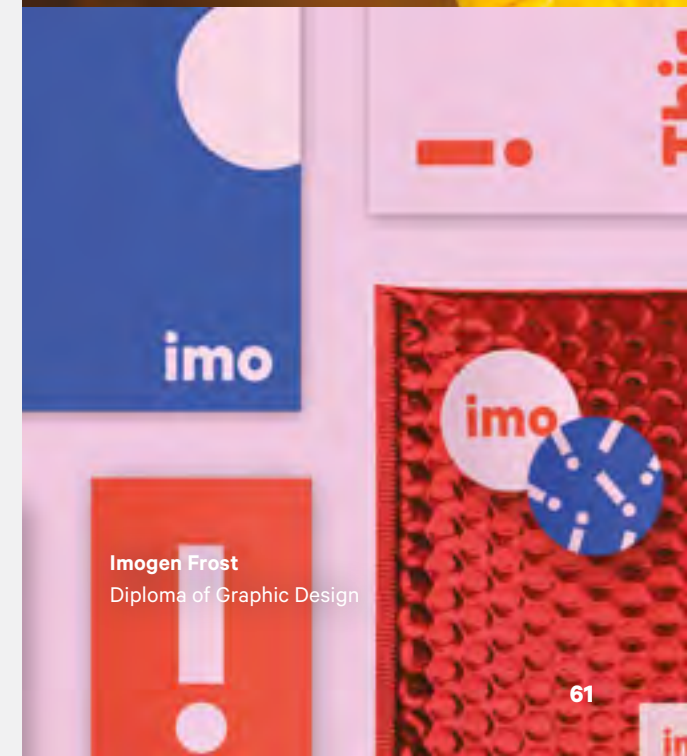

Entry requirements: Year 12 certificate (or equivalent)

Hospitality courses

Courses: Hospitality

Why Hospitality at Torrens University?

Want a five-star hospitality job that goes above and beyond? If you crave adventure and variety, studying Hospitality at Torrens University can put you on a career path that will open doors all over the world. You'll start building your career in the real world from day one, giving you a truly competitive edge and outstanding résumé.

Our Hospitality faculty was founded in partnership with the highly acclaimed Blue Mountains International Hotel Management School (BMIHMS) and William Blue College of Hospitality Management, famous for its student-run fine-dining restaurant. Hotel Management at Torrens University continues to be delivered through BMIHMS, the number-one hotel school in the Asia-Pacific.

Learn from the best, stand out from the rest

As one of the top-ranked hospitality schools in the world, BMIHMS qualifications are some of the most sought after on the planet.

Expect a call from one of the world's top hotels

Work with some of the most iconic hotel groups across the globe, such as Hilton and Intercontinental, and walk straight into the job you've always wanted.

Test yourself with the most passionate people

You'll have the opportunity to work with the most passionate people in the industry, creating experiences that customers will remember for years to come.

Course overview

Hospitality

Bachelor of Business (Hospitality Management)

CRICOS 094179F

The provision of food, drink and accommodation is one of the fastest-growing industries in the world, and it's so much more than pouring a beer or handing someone a room key.

Hospitality is an exciting, complex field that requires strong organisational and people skills, as well as a deep understanding of marketing, management and accounting. This course provides all that and more in a practical context that will see you graduate ready to lead and serve.

Course highlights:

- Discover business and management principles
- Explore an array of organisational structures
- Take a deep dive into the history of gastronomy
- Learn how to manage the people under your command
- View the tourist experience through a range of cultural lenses
- Research innovation and changing trends within the hospitality industry

Duration: 3 years (or Diploma: 1 Year)

Location: Sydney, Melbourne, Adelaide, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Front Office Manager

Take the lead in ensuring the day-to-day operations of the business are running as intended, making improvements when required.

Average salary: \$55,000–\$93,302

Restaurant Manager

Recruit the best staff and work with them to create a welcoming space for customers to enjoy meals, ensuring efficiency and profitability.

Average salary: \$52,500–\$90,000

Operations Manager

Set and review budgets, develop high-level strategies for your organisation and play a leading role in maintaining high-quality service.

Average salary: \$67,500–\$195,000

Potential careers:

Events Manager

Plan, organise and run special occasions in conjunction with stakeholders and staff, ensuring smooth sailing from start to finish.

Average salary: \$60,000–\$140,000

Travel Agent

More than itineraries and accommodation: source the best options for business clients and tourists in need of assistance, and show them the way to their ideal trip.

Average salary: \$39,550–\$72,250

Guest Services Agent

Stand on the front line of customer service, coordinating special requests, organising upgrades and handling guests' endlessly varied needs.

Average salary: \$36,206–\$65,247

Bachelor of Business (Tourism Management)

CRICOS 094176J

The world has become more mobile in recent decades, and people from many different cultures are constantly mingling as tourists.

Managing those interactions and ensuring visitors from other places are catered for is a hectic and exciting sector to work in. This course covers every facet of this global economy, including revenue, public relations and media strategy, preparing you for a career characterised by constant innovation, strategic planning and day-to-day flexibility.

Course highlights:

- Explore the role of sustainability in tourism
- Learn the core tenets of leadership
- Build your event management skills with a combination of theory and hands-on practice
- Gain a solid foundation in marketing fundamentals
- Develop a sense of cross-cultural awareness and communication
- Complete 800 hours in an approved internship

Duration: 3 years (or Diploma: 1 Year)

Location: Sydney, online

Study options: Full time or part time on campus, online or blended

Entry requirements: Year 12 certificate (or equivalent)

Courses: Hospitality

Bachelor of Culinary Management

CRICOS 094181A

Present your culinary vision on a plate.

This course combines a commercial cookery qualification with business management studies, preparing you to take charge in a commercial kitchen. You will learn to create delicious dishes on command, manage the day-to-day running of a food-based business and balance the financial side of the operation. It's the academic equivalent of "paddock to plate", covering every step from establishing a business to serving dinner.

Course highlights:

- Balance efficiency and profitability with quality
- Learn strategic planning, marketing and development skills
- Explore the history and context of gastronomy in different cultures
- Optimise health, safety and service standards in the kitchen
- Focus on the decision-making process through an accounting lens
- Discover the work that goes into creating the ideal menu

Duration: 3 years (or Associate Degree: 2 Years)

Location: Sydney

Study options: Full time or part time on campus or blended

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Chef

Conjure up marvels in the kitchen with staunch inventory management, communication with staff across the venue and quality ingredients.

Average salary: \$49,949–\$100,000

Restaurant Manager

Recruit staff, liaise with customers and take responsibility for the efficient and profitable running of an eatery.

Average salary: \$52,500–\$90,000

Baker

Wake up early each day to prepare the dough, then craft a variety of treats either in your own shop or as part of a larger organisation.

Average salary: \$39,538–\$97,750

Step into hotel management

Courses: Hospitality

For three decades, Blue Mountains International Hotel Management School has been launching the careers of thousands of hotel and events management graduates in one of the world's fastest-growing industries. We open doors all over the globe.

“Completing my industry placements at two different brands – a resort and five-star hotel – was so beneficial. It allowed me to experience the key differences between them.”

Ben Everingham

Bachelor of Business (International Hotel and Resort Management)

Bachelor of **Business (International Hotel and Resort Management)**

CRICOS 089925G

There is a high demand for qualified management-level staff in the hospitality industry, a sector that rewards both practical skills and hard work.

This flexible course ensures you will be exposed to a broad spectrum of roles and knowledge areas, preparing you with the right combination of theory and experience. For the first two years, students live on site at the Practical Learning Centre on the Leura (Blue Mountains) campus, which operates as a simulated hotel.

Course highlights:

- Undertake two hands-on industry placements
- Gain experience in a simulated hotel on campus
- Learn to manage both people and projects
- Discover the role of hospitality in different cultures
- Develop practical strategic and tactical skills in a business context
- Master management accounting and keeping track of revenue

Duration: 2.5 years

Location: Leura and Sydney (students must study at both)

Study options: Full-time on campus

Entry requirements: Year 12 certificate (or equivalent)

Potential careers:

Bar Manager

Create a safe and entertaining environment for customers and staff, as well as handling rosters and stock requirements behind the scenes.

Average salary: \$51,935–\$110,500

Resort Manager

Lead from the top in paradise, assuming responsibility for all facets of your guests' stay and supporting your workforce.

Average salary: \$57,500–\$153,000

Front Office Manager

Take the lead in ensuring the day-to-day operations of the business are running as intended, making improvements when required.

Average salary: \$49,886–\$79,061

Alumni profile

Oscar Giraldo

Bachelor of Interior Design (Commercial)

**Winner, Design Institute of
Australia's Regional and National
Graduate of the Year Award**

“Billy Blue, and especially my lecturers, have taught me how to approach and analyse each brand and brief in order to produce a tailored creative design solution.”

If you truly seek to understand the brand/client/product, it follows that your design will be successful. I learnt that, with every project, you must find your passion, rely on your creative thinking, and develop your own ways to innovate. You need to investigate and collate knowledge from diverse subjects and experiences. That way, you can draw upon extra inspiration and understanding to resolve design issues.

I got a job in one of the biggest events companies in Melbourne. It has allowed me to keep developing my skills in rendering, modelling and documentation, while gaining a deeper understanding of the Australian design and marketing industry.

These days, brands have a bigger challenge in the market. Every day, new brands or products are launched and people are keen to try all of them. Design must focus on how to engage with consumers and create brand experiences that people remember.

I've seen how people look for experiences and not just good products – and this has been translated into every level of design. I believe brands are more aware of consumer behaviour – and that's the main challenge we have as designers: engaging with the consumers and their consumption habits.

“I nurture and guide the design students through a human-centred design framework.”

Tim Jetis
Learning Facilitator, Communication Design
Creative Director, Cabinet of Wonder

“The practical component of my course really prepared me for the world outside of study. I am also grateful for the amazing lecturers I was able to learn from. It was so fulfilling knowing that I made a real difference to people’s health and lives. The opportunities I had to use different herbs on myself and my patients to improve skin appearance inspired my first blend of tea.

I founded Tea Tonic in 1998, when I launched my first tea – Complexion Tea. Since then, Tea Tonic has grown to be one of the premier suppliers of first-grade organic teas in Australia. I am proud to say we produce all our tea blends from our factory in Melbourne, using only high-quality, freshly milled herbs.

I am always brainstorming new tea flavours based on both taste and health benefits, and we have new ones launching all the time. We also attend many shows throughout the year to help introduce Tea Tonic to more people, so we are constantly thinking ahead and preparing for the next show.”

Lisa Hilbert
Bachelor of Applied Science
(Naturopathic Medicine/Naturopathy)

Ready to turn your passion into a career?

We're here to guide you towards a job that allows you to make a living from whatever you're truly passionate about. Follow these simple steps and you'll be on your way.

Open Days

Open Days are the perfect opportunity to experience the campus in full swing. You can even bring friends and family to see us at our best. We also run Virtual Open Days.
torrens.edu.au/openday

Campus tours

Want a personal tour? If you can't make it to Open Day, get in touch for your custom campus tour – complete with custom anecdotes, of course.

Apply now

Create a career
you love

We asked our students
about their experience at
Torrens University Australia.
Here's what they had to say...

Applying to Torrens University

Applying is easy, and we're here to help you get started.
In four simple steps, you could be on your way to
a career you will love.

1 Chat with us

We love a good chat, especially when it's about helping you choose the best course for your bright future. Our Course and Careers Advisors are happy to help with anything you need.

futurestudents@torrens.edu.au
Ph: 1300 575 803

3 Apply now

It's easy to apply online or through the Tertiary Admissions Centre in your state. Early Entry applications close by the end of September. We believe talent from any background deserves to shine, so check your eligibility and submit your application for a scholarship.

torrens.edu.au/apply-online/how-to
torrens.edu.au/apply-online/scholarships

2 Come visit Torrens University

Say hello at one of our events – it's the best way to see just how much you'll love studying with us. Don't miss out on our Open Days, when you'll get to explore the campus and your career options.

torrens.edu.au/events
torrens.edu.au/openday

4 Accept your offer and you're in

Our favourite part of the process is inviting you into the family. Accepting your offer is easy, but if you have any questions, our Course and Careers Advisors can guide you through the process.

Scholarships

We are committed to opening doors to opportunity and helping talent flourish however we can. At Torrens University Australia, we're all about rewarding effort and supporting circumstance – that's why we've offered more than \$3 million in scholarships every year. If you're a high achiever, in financial need, or from a diverse background, a Torrens University scholarship can help take care of your finances so you can focus on getting a job you love.

Graduate scholarships

Something else caught your eye? We want to give our graduates the opportunity to further their studies with a truly global university. As an alumnus, you're eligible for our Alumni Scholarship, which offers a reduction in fees for eligible applicants.

Scholarships for Indigenous Australians

Are you an ambitious and passionate Aboriginal and/or Torres Strait Islander student? You could be eligible for our exclusive Indigenous Student Scholarship, which offers a discount on tuition fees.

Faculty-based scholarships

It's easy to apply online or through Tertiary Admissions Centres. Early Entry applications close by the end of September. We believe talent from any background deserves to shine, so check your eligibility and submit your application for a scholarship.

International scholarships

Have you always dreamed of studying in Australia? Torrens University Australia welcomes the international community to study at Australia's fastest-growing university, with a reduction in fees.

"I recommend everyone applies. It's such an easy process and you have to be in it to win. When I applied, I told myself to stay positive and I told myself every day that the email was going to come through telling me I got it – and when I least expected, it did. Don't doubt yourself, apply and give it a go!"

Honey Skinner
Diploma of Photo Imaging

Entry programs

We know you are so much more than a number. That's why our entry programs are designed to improve your chances of getting into your dream course by considering criteria other than your ATAR.

Year 12 certificate

Students with a recent secondary school education who have an Australian Secondary School certificate (or equivalent) will be guaranteed admission.*

Diploma or associate degree

Torrens University offers a wide variety of diploma or associate degree courses that provide direct entry into the second year of bachelor degrees, once successfully completed.

Portfolio interview

If you don't meet the academic entry requirements for a Design bachelor degree, you can let your portfolio open doors for you. Submit a minimum of five pieces of your best work to showcase your skills in a related field, and let your real talent shine through.

Work-life experience

We know the best experience is accumulated through the work life you've lived. So for our Business, Hospitality and Design and Creative Technology degrees, you can use your work résumé to get into the Torrens University course you dream of.

*Exceptions apply to some courses

Fees & assistance

University fees can be a little confusing, because how much you pay depends on the faculty you choose, the course you study, and the subjects you enrol in. But fear not, help is here with this quick guide.

What is FEE-HELP?

FEE-HELP is a loan scheme which helps eligible students pay their fees. Most students can get a loan for up to \$106,319 (FEE-HELP limit for 2020). Indexation doesn't count towards your FEE-HELP limit. You'll pay the loan back to the Australian Government through the tax system once you reach the minimum income level of \$46,620 (as at 2020–2021 and is subject to change).

How do I apply for FEE-HELP?

If you get an offer from Torrens University Australia and you're eligible, then you'll need to complete a Commonwealth Assistance Form to access FEE-HELP to delay payment of some or all of your tuition fees. You'll need your Tax File Number or a Certificate of Tax File number, and you'll need to submit your form by the due date.

How do I know if I'm eligible?

- You are studying with an approved university – like us.
- You meet the citizenship and residency requirements. You're an Australian citizen or New Zealand Special Category visa holder who meets the long-term residency requirements and who is undertaking at least one unit of study in Australia; OR
- You're a permanent humanitarian visa holder who'll be residing in Australia for your study units; OR
- You're a permanent visa holder who's undertaking bridging study for overseas trained professionals, and residing in Australia for the duration of your studies
- You are enrolled in an eligible unit of study by the census date for the unit
- You have not exceeded the FEE-HELP limit

Any more questions?
